

bring these babies into the world, then those same ones who say those things, every time they have the opportunity to show a genuine compassion for these children they ought to extend that compassionate understanding and I believe this kill motion ought to have as many votes as LB 316 had. Sometimes it is difficult to draw these issues together without losing the thread of what the debate is for. I am up here in support of the kill motion but I am going to try again to link these two issues. It may seem easy to some of you. To some of you it may seem easy for me to take the position that I take on abortion but you don't have the capacity to read anybody's mind or understand the agony or the kind of thoughts that might go through a person's mind but whether you understand that or not we have taken a position in this Legislature as a whole that abortion is anathema, that it is evil, that it is a sin, so if there is not to be abortion in the case of a child being born retarded or handicapped, then show me that all of those votes in the talks on abortion were not hypocritical and, Senator Stoney, and Senator Lamb, and all of the others, we come to crunch times at various stages in the legislative proceedings and I believe that all of those who were against abortion should certainly support the kill motion and be in favor of any program that is going to help these children who might otherwise be "unwanted". The kill motion, Senator Sieck, I am glad that you offered it. By an individual who I think in the minds of most members of the Legislature would be viewed as being stable, certainly not a radical. I won't say he is conservative. I don't know enough about him to put that label on him, but he is not radical or any of the things which might cause the legislators to question his motives and his intentions. We are talking about the welfare of children...

SPEAKER MARVEL: You have one minute.

SENATOR CHAMBERS: ...and I think the kill motion will put the Legislature in a position to at least be consistent with the votes and a lot of the discussion on the abortion issue. I am strongly in favor of the kill motion.

SPEAKER MARVEL: The Chair recognizes Senator Simon.

SENATOR SIMON: Mr. President, I call the previous question.

SPEAKER MARVEL: Do I see five seconds? The question before the house is, shall we cease debate. All those in favor vote aye, opposed no. Shall debate cease? Record.
